**CONNECTIONS:** Two ball lock connections for gas in and liquid in

**CUSTOMIZATION:** Wide range of marking options and a choice of stainless steel grades, including 1.4301 /1.4404 and 1.4571

## AN INTELLIGENT AND FLEXIBLE SOLUTION FOR THE BEVERAGE INDUSTRY

KEEP YOUR PRODUCT IN THE BEST POSSIBLE CONDITION WITH OUR CORNELIUS STYLE KEG

The THIELMANN Cornelius Style Keg, also referred to as a Corny Keg, is constructed using high-quality and durable stainless steel (AISI 304). It is the ideal vessel for the storage and transportation of beverages, including beer, coffee, and pre-mix soda, commonly used within the soft drinks industry.

The main benefit of using a Corny Keg is the simple manual access via the oval handhole that facilitates safe and easy opening, filling, and cleaning, thus removing the need for investment in costly industrial filling and washing equipment. The keg features a removable lid and two ball lock connections for gas in and liquid in, facilitating a quick and simple connection for gas and liquids respectively.

**Choose between two different diameter sizes:** the **ø237 mm** option, which is specified with rubber chimes at both the top and bottom, or the **ø216 mm** format. This smaller option features a polypropylene handle in the place of the top chime, lower rubber chime (available in stainless steel on demand), two quick connections, and a dip tube, and now, is more affordable than ever.

There are various further personalization options available, such as branding to showcase your customer logo, and a choice of stainless steel grades, including 1.4301 /1.4404 and 1.4571 (including quick connectors and dip tube).

## ADVANTAGES

- Oval hand hole cover for easy access to the interior
- Equipped with a pressure relief valve
- Liquid and gas connection equipped with quick release valve.
- Recommended for beverage industry
- THIELMANN quality
- Adequate for foodstuff, and in compliance with the FDA (including fittings)

## APPLICATIONS

- Beer
- Wine
- Soft drinks
- Nitro coffee
- Cold brew coffee
- Juices
- Water
- Spirits
- Cider
- Cocktails
- Kombucha

## CUSTOMIZATION

- Personalization options including branding and labelling options
- **237 diameter:** upper and lower rubber chimes
- **216 diameter:** upper polypropylene handle, lower rubber chime (Bottom chime available in stainless steel on demand)
- Container material in stainless steel grades of 1.4301 1.4571 or 1.4404 (including quick connectors and dip tube)
- This product can be certified CE or ASME on demand

## VOLUME

- 10 and 20 liters
- Other sizes available upon request

TYPE	VOLUME (L / GAL)	DIAMETER (MM / IN)	WEIGHT (KG / LB)	HEIGHT (MM / IN)	BOTTOM CHIME
Corny 237	20 / 5.3	237 / 9.3	5.3 / 11.7	565 / 22.2	rubber
Corny 237	10 / 2.6	237 / 9.3	3.5 / 7.7	315 / 12.4	rubber
Corny 216	20 / 5.3	216 / 8.5	4.5 / 9.9	630 / 24.8	rubber or stainless steel
Corny 216	10 / 2.6	216 / 8.5	3.0 / 6.6	400 / 15.7	rubber or stainless steel

TOP-QUALITY THIELMANN CONTAINERS AND KEGS MADE OF HIGH-GRADE STAINLESS STEEL FOR DEMANDING BRANDS.

**THIELMANN serves a large variety of customer industries around the world with the most complete range of stainless steel containers in the market.**

The guarantees offered by top-quality, high-grade stainless steel for your industry's beverages give you the best possible distribution solution: hygienic, reliable, safe and 100% recyclable.

This storage and transport solution is made from a material which does not react with any kind of beverage, irrespective of temperature and internal or external conditions, meaning that it maintains the organoleptic properties.

TAKE YOUR BEVERAGES TO ANOTHER LEVEL. KEEP THEIR QUALITY INTACT WITH THIELMANN.

**All our products for the beverage industry are manufactured from high-grade austenitic stainless steel.**

Because it protects the beverage completely from UV light, pollution particles and corrosion, providing a service life of more than 30 years. Because the resistance of stainless steel and all the safety measurements inside our kegs protects your workers from possible explosions.

In any case, we would like to assure you that when you rely on THIELMANN, you are relying on a global engineering team, receiving a solution with a geometrically perfect design and, most important of all, we are ready to adapt to your specific needs.
