YOUR SOFT DRINK IN THE BEST POSSIBLE CONDITION

AN INTELLIGENT AND FLEXIBLE SOLUTION FOR SOFT DRINKS UNDER PRESSURE

The THIELMANN Cornelius Style Keg, also referred to as a “Corny Keg”, is constructed using high quality and durable stainless steel (AISI 304) and is the ideal vessel for the pressurized storage and transportation of “pre-mix” soda commonly used within the soft drinks industry.

The main benefit of using a Cornelius style keg is the simple manual access via the oval handhole which facilitates safe and easy opening, filling and cleaning, thus removing the need for investment in, sometimes costly, industrial filling and washing equipment.

The keg features a removable lid and two ball lock connections for gas in and liquid in, facilitating a quick and simple connection for gas and liquids respectively.

THIELMANN Cornelius Style kegs are available in a range of different sizes and formats, from 2L - 46L, to meet the specific needs of the Beverage Industry and represent a flexible and cost-effective solution. Choose between two different diameter sizes, the ø237mm option is specified with rubber at both the top and bottom, or the ø216mm format which features a rubber bottom as standard, however can be specified as a stainless steel bottom depending on your requirements.

ADVANTAGES

- OVAL HAND HOLE COVER FOR EASY ACCESS TO THE INTERIOR
- EQUIPPED WITH A PRESSURE RELIEF VALVE
- LIQUID AND GAS CONNECTION EQUIPPED WITH QUICK RELEASE VALVE.
- RECOMMENDED FOR BEVERAGE INDUSTRY
- THIELMANN QUALITY

APPLICATIONS

- beer
- wine
- cider
- juices

TAKE YOUR BEVERAGES TO ANOTHER LEVEL. KEEP THEIR QUALITY INTACT WITH THIELMANN.

All our products for the beverage industry are manufactured from high-grade austenitic stainless steel.

Because it protects the beverage completely from UV light, pollution particles and corrosion, providing a service life of more than 30 years. Because the resistance of stainless steel and all the safety measurements inside our kegs protects your workers from possible explosions.

In any case, we would like to assure you that when you rely on THIELMANN, you are relying on a global engineering team, receiving a solution with a geometrically perfect design and, most important of all, we are ready to adapt to your specific needs.
