

## IBC SERVICES

FROM MAINTENANCE TO REPAIRS AND CERTIFICATIONS, RENTING, AND EVEN FINANCING SOLUTIONS, HERE AT THIELMANN WE WANT TO TAKE THE HARD WORK OUT OF MANAGING YOUR CONTAINER FLEET.

As a company specializing in comprehensive large IBC packaging services, you can receive all services, from a single source, leaving you to focus on your core business whilst ensuring a reliable and cost-effective supply chain of clean and functioning IBCs for your customers.

### IBC CLEANING

Residue-free cleaning of a used IBC is immensely important in order to ensure optimal quality of products to be stored and transported after use, regardless of whether it is a liquid, sticky or a free-flowing substance.

Optimal cleaning ensures that you can easily meet even the highest quality requirements demanded by OEMs, even for particularly sensitive contents.

Thanks to our multi-stage process and you will receive your IBCs sparkling clean, like new:

- Pick up
- Initial check to evaluate the most suitable cleaning method:
  - Inner cleaning:
    - Pressurized hot water
    - Pressurized cold water
    - Cleaning with solvents
    - Cleaning with Acid
    - Manual cleaning
  - Outer cleaning
  - Additional specialized clean (Special procedures as kosher, halal and silicone free can be provided on top if requested).
- Delivery & Documentation

### IBC MAINTENANCE

In the supply chain your IBCs may be exposed to a variety of stresses and strains, and as such damage can occur which may affect their functionality.

In this case, you are able to use our service solutions for the maintenance, repair and also the refurbishing of your valuable containers, extending their useful working life.

This in turn increases your profitability, and also helps to create sustainability.

As a specialist company, we have the approval and expertise to carry out many different types of work to keep your containers in perfect working condition:

- Repairs to the tank
- Leak testing
- Replacement of fittings
- Supply of spare parts
- Welding on steel and stainless steel

### INSPECTION (NR. BAM / III. 13 / 015)

Wherever dangerous goods are transported, the legislator demands regular inspections of the containers used. As a recognized inspection agency in accordance with the BAM Dangerous Goods Guidelines (GGR 002), we can undertake all of the required periodic testing and inspections for your IBCs.

The inspections of your IBC can either be carried out at our dedicated cleaning facilities or on-site at your company.

## LOGISTICS

The right IBC, at the right time, at the right place: the THIELMANN logistics service saves not only time and effort, but also unnecessary costs too. It's all part of the service: we pick up your used containers from you or direct from your customers, clean and maintain them, and then simply deliver them back to you - ready for use. Delivery and collection dates are organized according to your specific requirements, meaning that it is not only convenient to stay on top of the optimization of your IBC inventory, but also a breeze.

Our service solutions have been tailored specifically with our customers in mind, with the goal of increasing their economic efficiency through intelligent utilization.

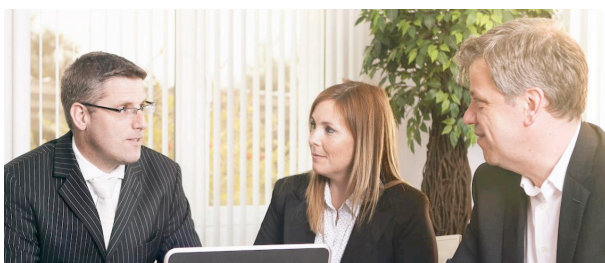

## IBC RENTALS

In reaction to a surge in market demand, THIELMANN has got your business covered with its range of standard IBCs, in stock, and now available to rent. Our offer includes renting and leasing from short to long-term, and sale/ lease back agreements.

- Flexibility: containers when and where needed, with the latest technology, allowing you to benefit from seasonal surges in demand and production.
- Quick delivery: the right container for the right product, delivered at short notice thanks to our large stock.
- Financial benefits by reserving valuable lines of credit for other growth opportunities.

Standard IBCs available for rent can be customized with different discharge valves depending on your connections, and labelled or customized with a sticker with your brand's name.

## BUYING AND SELLING SERVICES

Whether you need to dispose of your old containers or are considering buying second-hand ones, we are confident that our 360 services will have the solution for you:

- Purchasing of already-used containers from our customers, including kegs, IBC, and tank containers which we then, depending on the condition, either scrap or recondition and re-sell.
- We also offer to sell second-hand containers to our customers, which we ensure have met our own very high standards, in a wide range of sizes, specifications, and conditions.

## FINANCIAL SERVICES

THIELMANN offers customized financial solutions to meet your business objectives. Whether you're a small company or a large corporation, we have the resources and know-how to help your business to develop and expand.
